Gentlemen:

The Secretary's most kind advise while I was South, helped me a lot and brought from Mrs. Roosevelt, college presidents and others, a fine interest and response as to Clara Barton's nomination.

Kindly tell me, if the election is still in the future. Also I think you advised that it was all right for American Leaders to write to Electors. If so, is it all right to send them National Leaders estimates of Clara Barton. In order to do so, I would have to have their addresses as only States are mentioned in the list you sent me.

To address them to a number of the Electors printed in your list, how can I get their town addresses?

Deeply appreciating your courtesy,

P. H. Epler
